

Welcome to uDig Workshop

- An Introduction to the uDig Open Source Desktop
- Welcome to Lab-08

There is so much FOSS4G software to Choose From

You have taken the first step coming to
FOSS4G 2007

But how can you sort out what software is worth your time?

Gain some hands on experience

Try uDig to evaluate FOSS4G software quickly and easily

Q: How to Start Again?

- **C:\Documents And Settings\FOSS4G\uDig**
- **(Delete this FOLDER)**
-

The DATA is on your computer

- On the DESKTOP
- Udig-Lab
- Or
- Lab08uDig
- (it has all the shapefiles)

Lab is using GeoServer 1.4

- Use the url for MapBuilder :-)
- http://localhost:8080/geoserver/wfs-t_demo/index.html

Thank you!
